RESEARCH & INNOVATION CELL

A Research and Innovation Cell (RIC) is a vital component of any institution, responsible for promoting and supporting research and innovation activities. Functions of Research and Innovation Cell

1. Research Promotion: Encourages and supports faculty and students in conducting research in various fields.
2. Innovation Support: Provides resources and guidance to students and faculty to develop innovative ideas and projects.
3. Funding and Grants: Assists in securing funding and grants for research projects from government agencies, industries, and other organizations.
4. Collaborations and Partnerships: Facilitates collaborations and partnerships with other institutions, industries, and organizations to promote research and innovation.
5. Intellectual Property Management: Assists in managing intellectual property rights, including patents, copyrights, and trademarks.
6. Research Publication and Dissemination: Supports the publication and dissemination of research findings in reputable journals and conferences.
7. Research Ethics and Compliance: Ensures that research activities are conducted in accordance with ethical standards and regulatory requirements.
